BLACKBURNS **METALS LIMITED**

Blackburns is one of Europe's leading suppliers of Aluminium, Stainless Steel and other semi finished non-ferrous products. Its name is synonymous with high quality and service levels throughout both industry and the manufacturing sectors with a reputation for innovative products and supply partnerships.

With a strategically placed network of Sales and Service Centres, Blackburns provides immediate stock availability and local service to a wide range of industry and market sectors, with what is probably the most comprehensive product range and processing facilities in the UK. Local stock is enhanced by a central facility which carries over 10,000 tonnes of material in over 200,000 square feet, all of which is available on a daily basis to each Service Centre throughout the UK.

Focused on customer requirements, a significant investment has been made in processing and fabricating facilities, allowing Blackburns to supply material closer to final form, providing the option of bespoke sizes and finishes previously unavailable, creating a real opportunity of a 'one stop shop'.

Blackburns remains responsive to the constant fluctuation in demand faced by its customers, with the ability to supply most parts of the UK within 24 hours and globally through its Export Department, Blackburns are committed to building long term cost saving relationships with its customers.
